ASSESSMENT IN CS
Innovative approaches to testing and learning

80

GUIDE TO NEA
Bluffer's Guide to Non-Examination Assessments for GCSE CS

62

COMPETITIONS
Motivating your class

34

PLAYFUL PROGRAMMING
Hello Ruby and Reggio Emilia

44

PYTHON AND EAL
Does language matter?

76

WHITE HATS
Hacking as a learning experience

CONVERSATION

- 78** **10 TIPS**
Teaching independent learners
- 80** **BLUFFER'S GUIDE**
Your guide to the new NEA
- 84** **FAQ**
Your questions answered
- 94** **LETTERS**
Join the conversation

LEARNING

TUTORIALS & LESSON PLANS

- 48** **SCRATCH PONG**
Assess the abilities of your new Year 7 students with this simple activity
- 50** **SCRATCH CLOCK**
Learn about algorithms, and code your own stopwatch
- 52** **GAME DESIGN**
You're the client, and your students are the game designers in this cross-curricular project
- 56** **SERVER-FREE SQL**
Introducing SQLite3, a database-building Python library

NEWS AND FEATURES

- 06** **NEWS**
What's new in CS education?
- 14** **ONLINE VIDEO**
Learning for the YouTube generation
- 16** **#INSIGHTS**
The future is automated
- 20** **APPROACHES TO ASSESSMENT**
Ideas for assessment in CS
- 21** **NEA LOWDOWN**
An introduction to NEAs
- 22** **ASSESSING PROGRAMMING**
Judging the quality of code
- 24** **MULTIPLE CHOICE**
Writing robust questions

- 25** **PARSONS PROBLEMS**
A tool for learning and assessment
- 26** **AUTOGRADING**
Autograders for Scratch and Snap!
- 28** **DIGITAL BADGES**
Online credentialing
- 34** **PLAYFUL PROGRAMMING**
Embracing creative coding
- 36** **BAREFOOT COMPUTING**
Resources for teachers
- 38** **CS UNPLUGGED**
New teaching materials
- 39** **PHYSICAL COMPUTING**
Getting excited about coding

- 40** **LEADERSHIP TOOLKIT**
Seeking support from your school leadership team
- 42** **ONLINE TRAINING**
New courses from The Raspberry Pi Foundation
- 44** **LANGUAGE BARRIER**
Teaching Python to EAL students
- 46** **OPEN-SOURCE RESOURCES**
The open education revolution
- 59** **RSA AND PRIME NUMBERS**
Encryption techniques
- 60** **VARIABLES AND VALUES**
Sharing and copying
- 62** **COMPETITIVE LEARNING**
Competitions for your students

- 64** **SHOW YOUR WORKING**
Using exercise books in CS
- 66** **CAREER INSIGHT**
What does a software engineer do?
- 68** **BEAVERING AWAY**
Bebbras and computational thinking
- 70** **TEACHING GOTO**
Programming foundations
- 71** **BASIC LESSONS**
Revisiting the BBC Micro
- 72** **HANDS-ON MICRO-BIT**
Hands-off teaching
- 73** **SCRATCHJR**
Programming with Year 1
- 74** **SMELLY CODE**
How sweet is your Scratch code?

- 76** **HACKERS IN THE CLASSROOM**
Cybersecurity and ethics
- 88** **BOOK REVIEWS**
What we're reading this term
- 90** **EVENT GUIDE**
Part two of our guide to running your community event
- 98** **MANY LANGUAGES?**
Fluency and range in programming languages
