COVER FEATURE

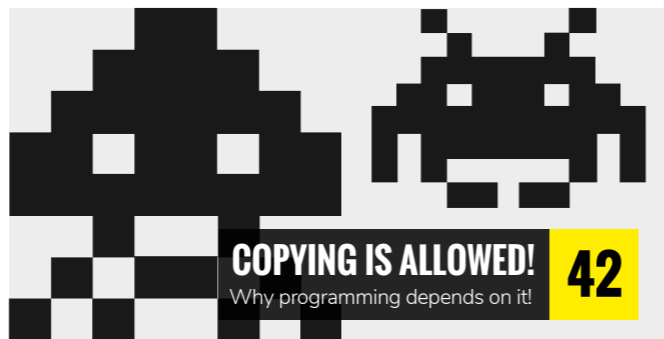

13

ENGINEERING IN FOCUS
Our bumper section starts on page 13!

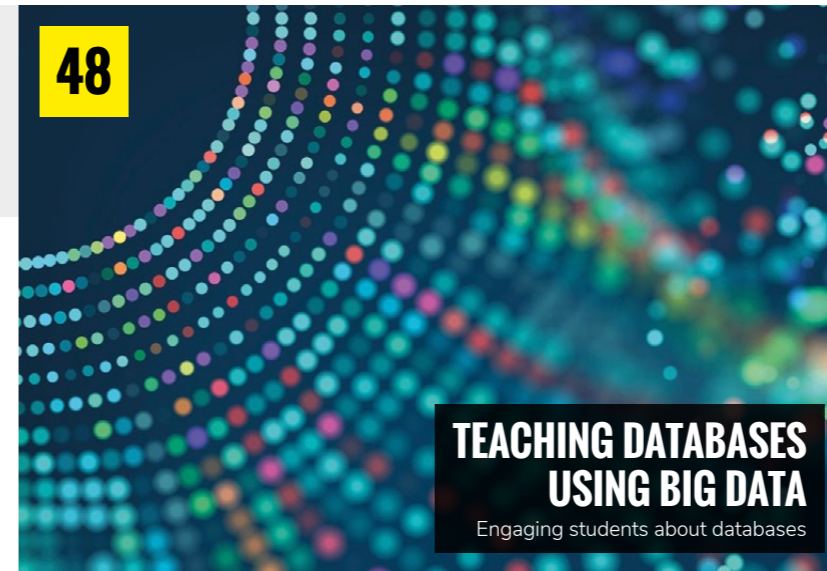

CODING FOR THE VISUALLY IMPAIRED
The importance of inclusion in the classroom

28

COPYING IS ALLOWED!
Why programming depends on it!

42

48

TEACHING DATABASES USING BIG DATA
Engaging students about databases

BLUFFER'S GUIDE TO SCHOOL TRIPS
Your essential guide to a good day out!

78

GUIDE

77 **ADDING BLOCKS TO SNAP!**
Enable children to build AI programs

LESSON PLANS

50 **LIGHT UP YOUR WORLD!**
Create a light sensor using the micro:bit

52 **USING LOGO**
How to illustrate five characteristics of computational thinking - in one plan!

CONVERSATION

78 **BLUFFER'S GUIDE**
Our special guide to planning a computing school trip

82 **LETTERS**
This issue: Picademy, Snap! and stretched budgets...

REVIEWS

88 **BOOKS ROUND-UP**
New resources read and reviewed!

ENGINEERING SPECIAL

- 13** **RHYS MORGAN**
The Royal Academy of Engineering's director of engineering's welcome
- 14** **ENGINEERS MAKE THINGS THAT HELP PEOPLE**
Cultivating engineering skills
- 15** **SOFTWARE ENGINEERING**
Turning a hobby into a job!
- 16** **THINK LIKE AN ENGINEER**
Get your pupils' habits of mind working in your classroom
- 18** **'HOW WE CAME UP WITH THE RASPBERRY PI'**
The challenges and the solutions
- 20** **MAGGIE PHILBIN**
All about the TeenTech Awards
- 21** **ENGINEERS IN THE MAKING!**
A little bit of STEM by stealth!

NEWS AND FEATURES

- 22** **INSIGHTS & RESEARCH**
Computational thinking, the PRIMM model, and digital making educators
- 26** **FUNCTION FOLLOWS FORM**
Greg Michaelson on recursion
- 28** **CS FOR ALL**
Coding for the visually impaired
- 30** **THE POWER OF NETWORKING**
Tracing the development of networking
- 34** **AIINSCHOOLS**
The AllinSchools programme
- 36** **IS BEE-BOT A COMPUTER?**
Just what is a computer?
- 38** **GP, SCRATCH, SNAP!**
Block-based programming
- 40** **AFTER SCRATCH, TRY GP!**
How GP can help students
- 42** **COPYING IS ALLOWED**
Copying is important for learning
- 44** **AGILE METHODOLOGIES**
Working as a software developer
- 46** **USING MAKERSPACES**
Makerspaces are an invaluable tool
- 48** **TEACHING DATABASES**
Use big data to engage students
- 54** **PRIMARY PROGRAMMING DESIGN**
Teach design elements in programming to help pupils develop their skills
- 56** **NEW EDUCATIONAL APPROACHES**
Offering new educational contexts to your students

- 58** **TO BOLDLY GO INTO VR**
Lorna Elkes on the benefits of VR
- 60** **SUPPORTING SEN CHILDREN**
How tangible programming can help
- 63** **LANGTON'S ANT**
Paul Powell talks about a simple yet interesting algorithm
- 64** **MAKING LEARNING HAPPEN**
How makerspaces can augment your classroom learning
- 66** **FLOW CONTROL**
Do primary learners need to understand it?
- 69** **TEACHERS' PERCEPTIONS**
Which kind of teacher are you when it comes to technology?
- 70** **MATHEMATICAL MUSINGS**
Mark Thornber on repeating decimals
- 71** **PROFESSIONAL DEVELOPMENT**
How it can build confidence
- 72** **PROSTHETIC HAND**
A student-centred learning story
- 74** **TANGIBLE LEARNING**
Teaching reception and Key Stage 1
- 90** **WHY CODING IS LIKE COOKING**
A deeper understanding of coding
- 92** **EVENTFUL INSPIRATION**
Run a successful tech-based event
- 96** **PINKIFY**
Gender stereotypes and coding
