

(HW) CONTENTS

COVER FEATURE **13**

INTRODUCING ETHICS

Technological changes bring new moral questions

DOING THE RIGHT THING

Can computing help make 'good citizens'?

16

14

ETHICS IN THE CURRICULUM

How to introduce them to students

18

THE NEED TO TALK ETHICS

Teaching future generations

19

5- TO 14-YEAR-OLDS & TEACHING ETHICS

Could self-driving cars help?

#ETHICALCS

The growing movement for ethical CS

20

THE CHALLENGE OF AI

Should we allow robo-teachers?

21

CONVERSATION

- 62** **NEW ONLINE COURSES FROM RASPBERRY PI**
Four new courses in focus...
- 80** **BLUFFER'S GUIDE**
Hitchhiker's guide to KS3 computing!
- 84** **FAQS**
Your questions answered by the Raspberry Pi team!
- 87** **LETTERS**
Get in touch...

REVIEWS

- 94** **BOOKS ROUND-UP**
New resources read and reviewed!

NEWS AND FEATURES

- 6** **NEWS**
The latest from the world of CS education
- 22** **INSIGHTS**
Looking into the community of digital making educators
- 26** **GAME-BASED LEARNING**
Bringing videogames into the classroom!
- 29** **REVIEWING OUR APPROACH TO COMPUTING**
A call for a review...
- 30** **WHAT'S TURNING GIRLS OFF COMPUTER SCIENCE?**
What can be done about it?
- 34** **CHILDREN'S LITERATURE**
Bringing books to coding!
- 36** **ESCAPE ROOMS**
Using them to improve problem-solving skills
- 38** **PACKET TRACER**
Making the principles of networking clear
- 40** **PI AS A MANIPULATIVE**
Getting hands on with computers – wires and all!
- 42** **HACKING MINECRAFT**
Using text-based code to change your Minecraft world!
- 44** **NETWORK OF EXCELLENCE**
The programme aimed at improving teachers' confidence
- 55** **USING SCRATCH & MAKEY MAKEY**
Tools to help study motion
- 56** **PROGRAMS & PARADOXES**
Finding paradoxes in self-referential uses of programming languages
- 58** **THE 100 WORD CHALLENGE**
A free resource to unlock creative writing
- 60** **CS IN IRELAND**
Irish education to introduce CS certificate
- 64** **MICROBLOCKS**
Bringing electronic creations to life!

- 66** **RIDE YOUR BICYCLE TOUR - IN MINECRAFT**
Turning your bike into an input device!
- 69** **FRACTALS**
More mathematical musings, this time with the Chaos Game!
- 70** **APPS FOR GOOD**
The importance of machine learning
- 72** **THERAPEUTIC BENEFITS OF DIGITAL MAKING**
A Sheffield special school unearths added benefits from its teaching
- 74** **REUSING FAMILIAR TECHNIQUES**
Example programs are invaluable in the classroom
- 76** **TECHATHON**
Raising the profile of women in tech
- 78** **CYBERCRIME**
The growing global demand for cybersecurity experts
- 88** **WHAT HAVE WE LEARNED FROM TEACHING COMPUTING?**
Four years on from a new curriculum, just what's changed?
- 91** **PROFESSIONAL DEVELOPMENT**
How do you work out what quality CS professional development is?
- 97** **GCSE AND A LEVEL CS**
The highs and lows of this year's exam results

LEARNING

TUTORIALS & LESSON PLANS

- 46** **TURNING UP THE HEAT**
Using a micro:bit to introduce conditionals
- 48** **PAC-MAN TREASURE HUNTING**
Hacking the Pi's terminal and learning basic cybersecurity skills
- 50** **SINGING PIANO - IN SCRATCH!**
Get children excited about creating programs
- 52** **SET A CHALLENGE FOR LEARNERS AND TEACHERS**
Developing computational thinking
