Some of the tools and techniques shown in HackSpace Magazine are dangerous unless used with skill, experience, and appropriate personal protection equipment. While we attempt to guide the reader, ultimately you are responsible for your own safety and understanding the limits of your own personal equipment or work area. HackSpace Magazine does not assume responsibility for any injury, damage to equipment, or construction failure. Consult the manuals or suggestions in HackSpace Magazine, laws and regulations covering any of the projects and techniques shown, and your manufacturer’s instruction manual. If you are unsure about the safety, legal, or ergonomic implications of any project, seek advice from your local advisor or manufacturer. If you are not sure how to use your hardware, please consult the manual. Some manufacturers place limits on the use of their hardware which some projects or suggestions in HackSpace Magazine may go beyond. It is your responsibility to understand the manufacturer’s limits.
