

# Contents

## 06 SPARK

- 06 Top Projects**  
The Musée d'Orsay of DIY projects
- 16 Objet 3d'art**  
Form meets function meets hot PLA
- 18 Upcycling**  
Delightful things made from rubbish
- 20 Meet the Maker: Electronic Cats**  
Why Mexico should share more open hardware
- 24 Columns**  
How to be a better maker? Make better things!
- 26 Letters**  
It looks like you lot like rockets...

## 118

## 29 LENS

- 30 Build a Maker Business**  
Turn your passion into a career with our expert advice
- 44 Interview: Wilbur Pan**  
Revealing the mystical secrets of Japanese joinery
- 52 The Hackaday Prize: the Winners**  
The open hardware that's already changing lives
- 56 Improviser's Toolbox Toothbrushes**  
Dental hygiene has never been more hackable

## Tutorial

### NFC cuff-links

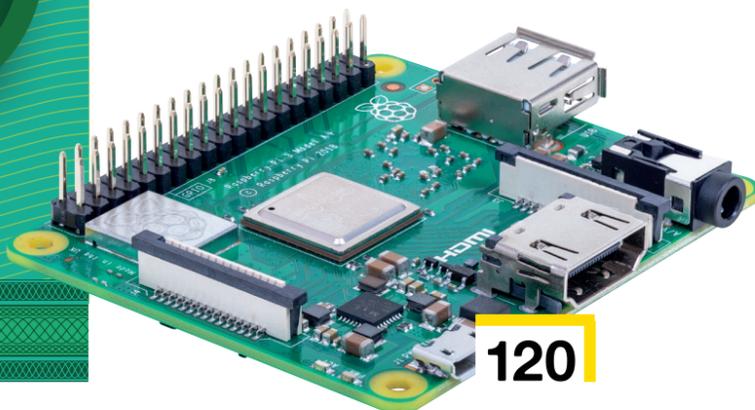

- 76** Wear suave gadgets like a generic British spy

## Cover Feature

**BUILD A MAKER BUSINESS**

LIVE THE DREAM:  
turn your making skills into a career

**30**

## 120

## Direct from Shenzhen

### Power supply

- 110** Control the cosmic power of electrons (but be careful!)

## 112

## Interview

### Wilbur Pan

- 44** Why maybe the Industrial Revolution wasn't such a great thing after all

- 52**

## 61 FORGE

- 62 SoM Electronics 101: Transistors**  
Understand the best thing since the wheel
- 68 SoM Screwdrivers**  
Cross-head, Phillips, Pozidriv: we explain them all
- 70 Tutorial Make a knife switch**  
Indulge your inner mad scientist with this sci-fi staple
- 76 Tutorial NFC cuff-links**  
Be the best-dressed spy at the Christmas party
- 82 Tutorial Conductive dough**  
Calculate resistances through squishy circuits
- 86 Tutorial Scrolling door hanger**  
Tell humans to go away with blinkenlights
- 92 Tutorial Router skills**  
Not used a router before? Try this storage tray build
- 96 Tutorial Glove sampler**  
Play back sampled sound with a click of your fingers
- 104 Tutorial Arduino robot**  
Create an autonomous rover from scratch

## 109 FIELD TEST

- 110 Direct from Shenzhen Bench power supply**  
In which we try not to kill ourselves with unearthed voltages
- 112 Best of Breed**  
Alternative conductors to bring variety to your electronics
- 118 Can I Hack It?**  
Display custom festive greetings with an LED projector
- 120 Review Raspberry Pi 3 Model A+**  
With great power comes a minuscule retail price (\$25)
- 122 Review TS100 soldering iron**  
Control your soldering with this variable power tool
- 124 Review Weekend Woodworker**  
We follow a beginner's course for amateur shed dwellers
- 126 Review Graff SpeedCutter**  
Mercilessly shred anything woody that gets in your way
- 128 Review MonkMakesDuino LCD**  
An Arduino clone built for your breadboard
- 129 Book Review Harry Potter and the Methods of Rationality**  
YER A PHILOSOPHER, HARRY!
